

Sewerperson - Louisville

{intro}

I'm tongue tied, baby, can you help?

These cigarettes left residue inside my mouth

And i apologize, sorry i

Can't be saved, but we're at home, we're alright (boyfifty)

And i feel the weeds grow quickly from my mouth

When i'm in the ground, i hope you wish me well

'cause i'll look out for you, and i always will

I'm still outside her door, way back in louisville

{verse 1}

I promise it's not that deep, i wish you talked more

I pick up my cup, and it's full of wokhardt

I could never have gave you what you asked for, seriously

I think you just not who i was meant for

I look at the star signs

I love it out of the city, i can come alive

Landmines

Egg shells on my feet with her at all times, yeah

{chorus}

I'm tongue tied, baby, can you help

These cigarettes left residue inside my mouth

And i apologize, sorry i

Can't be saved, but we're at home, we're alright

{verse 2}

An old man told me to fear of what i've done

Not 'cause i am lost but 'cause it'll make me think i was

He told me, "don't worry son, we're one with the sea"

They dump us in the water, and they expect us not to breath

{bridge}

**I feel domino effect take place
But i'll just sing along cause that's fate
In louisville, i left a piece of me
I hope that she keeps it safe**

{chorus}

**I'm tongue tied, baby, can you help?
These cigarettes left residue inside my mouth
And i apologize, sorry i
Can't be saved, but we're at home, we're alright
And i feel the weeds grow quickly in my mouth
When i'm in the ground, i hope you wish me well
'cause i'll look out for you, and i always will
I'm still outside her door, way back in louisville**

{verse 3}

**I feel rain through the ceiling in my living room
I can fix myself when tryna shelter you, i'm sorry
I know that you know, but damn, i love it when it's pouring
Ain't that much to say right now so say it slowly
Hold on to me
While i beat this heart ache
I could barely see
Through all this blind rage**

{bridge}

**I cannot sleep lately
Something in the corner keeps calling me by my name
I cannot eat lately
Every day and every night, everything the same**

{chorus}

I'm tongue tied, baby, can you help?

**These cigarettes left residue inside my mouth
And i apologize, sorry i
Can't be saved, but we're at home, we're alright
And i feel the weeds grow quickly in my mouth
When i'm in the ground, i hope you wish me well
'cause i'll look out for you, and i always will
I'm still outside her door, way back in louisville**
