Say you good

I'm alright

I'm alright

Say you good

I'm alright

I'm alright

Things in my head

Gut feeling strong

Thinking it's a good night

Hoping a good night

See you under the moon

See you soon

Say you good

I'm alright

I'm alright

Say you good

I'm alright

I'm alright

All alright everything's

Going to be alright

Everything's going to be fine

All alright call myself down

Got to sedate myself
