

## **Gotham City Syndicatez - Kali Yuga**

**{Verse}**

**Day feeding, life's speeding**

**Spear's bleeding, no hope now**

**Day feeding, life's speeding**

**Spear's bleeding, tell me how**

**I long for the times before the kiss swallowed my forbidden bliss**

**I long for the times before the bliss hallowed the eternal kiss**

**{Pre-Chorus}**

**Don't think you don't know, what is happening**

**Eyes are detracted, from the great awakening**

**What kind of retarded persuasions led you to this state of mind?**

**How much of these foolish pervasions led you to this fate in signs?**

**{Chorus}**

**Look up high and you'll see it's written in the stars**

**Look outside and you'll see a life that's free from bars**

**{Chorus}**

**Look up high and you'll see it's written in the stars  
Look outside and you'll see a life that's free from bars  
Detracted from the wise, we see you with our eyes  
There's no one to predict, there's no pain to afflict  
We're burning up the storm, we're fending off the swarm  
Life stared through the bottle, we don't feel anymore**

**{Bridge}**

**Where did we go wrong for a pain that will prolong  
Kali Yuga, the cycle broken, Batman is our parting token**

**{Pre-Chorus}**

**Don't think you don't know, what is happening  
Eyes are detracted, from the great awakening  
What kind of retarded persuasions led you to this state of mind?

No more, no more**
