

Indi Star - Victory

{Verse 1:}

**Did you know, I don't really talk about
What I go through
When they ask, are they even listening
Because of that, it's easier just to say
Baby I'm all good, but I'm not the person
You should latch onto**

{Pre Chorus:}

**I don't know that I'm steady ground
I know I'm a champion**

{Chorus:}

**But I don't know how to compete
They all call me their champion
But it's a heavyweight over me
It doesn't feel like a victory
It doesn't feel like a victory**

{Verse 2:}

**Childish games, kind of like telephone
What do you think you know?
Spread like wildfire, can we ceasefire
Build me up just to break me down again
I'm not your hero, I'm trying to be my own**

{Pre Chorus:}

**I don't know that I'm steady ground
I know I'm a champion**

{Chorus:}

But I don't know how to compete

They all call me their champion

But it's a heavyweight over me

It doesn't feel like a victory

It doesn't feel like a victory

It doesn't feel like a victory
