Alec Normal - Redo The Night

If my life was a do-or-die

Would you take it from me?

If you could see everything inside

Would you believe what you would see?

Redo the night

Redo the night

Redo the night

Redo the night

If my life was a chrysalis

Unaltered state and rogue

Would you accept the mist of this

And would you be my road?

If I could do just one thing

To know

How different it could really be

Would you accept it or show

The world

The truth of what's inside of me?

Ordinary
