

## **Alec Normal - Arise**

**Walk with me  
Through all uncertainties  
Because we never know  
Where the future may go**

**I'll run with you  
Even if they don't want me to  
I love you baby  
I love you baby**

**Arise, arise and smell the sky  
Feel the brightness in your eyes  
Arise, and forget about the past  
This feeling's gonna last**

**Will you hold my hand  
When we don't understand  
Cause if our life ends now  
This is how we'd lay down**

**You're afraid to lose  
Someone who used abuse  
We're here now baby  
We're here now baby**

**Arise, arise and smell the sky  
Feel the brightness in your eyes  
Arise, and forget about the past  
This feeling's gonna last**
