

Indi Star - Better

{Verse 1:}

**I've been trying my best
But my head's a mess
Critical cause I'm not perfect
Try to disconnect
Cause I've got nothing left
Don't wanna read these comments**

{Pre-Chorus:}

**I've been
Spending all my time on something superficial
I'm losing control
Spiraling I'm hiding it all
I need to know
Yeah I need to know**

{Chorus:}

**Do things get better better better better
Will things get better better better better
There's so much pressure
And I can't do this forever
Will things get better better better**

{Verse 2:}

**Don't wanna lose myself
But I could use some help
Nobody asks so I keep moving
But it's a long way down
And I'm hurting now
I'm losing my control**

{Pre-Chorus:}

**Cause I've been
Spending all my time on something superficial
I'm losing control
Spiraling but no one knows I've been here before
Yeah I need to know**

{Chorus:}

**Do things get better better better better
Will things get better better better better
There's so much pressure
And I can't do this forever
Will things get better better better**
