

Laura Les - How to dress as human

{Verse}

How to dress as human?

What, like a skirt and like, some heels?

Now I look stupid

Is this how every human feels?

Better go with Vans

I'm never gonna pass

I should stay home

Why did I make plans?

{Chorus}

Drunk in the bathroom

Messing with my skirt

I got hair in my tights

And nothing in my shirt

If I paint on some lips

Will they come off with a kiss and tell? (and tell)
