

YNKEUMALICE - Hash slinging slasher

Find my chill

Like freezer Big ice

Trying to apply pressure

Eumalice records what you claim

It's big six seven six

Fly as an aldins carpet

Wish upon a star and genie

Smoke around me like genie

Smoking like hazard lights

Feeling like I'm big slug

Say you want to claim greatness

Got to go goat got to goat

Got to roll up on Decepticon

Spin the bottle like top toy

She just wanna cop me

She just wanna cuff me

Link in to deep

She know I'm cut throat

Money blood on the leaves

Fall outside everyday

Know it's a circus

Clowning big time

Yall some jokes

And I quote

Thy
