

Manapart - Noah's Ark

{Verse 1}

**Oh wind, whisper me
Tell me please
What you have seen?
Our seas are drying up
With every breath
Of our God**

{Break}

**She is dying
She is dying now
She is dying
She is dying now**

{Bridge}

**One day we will lose it all
When we see her tortured corpse in front of us**

{Verse 1}

**Four-legged friends
We loved you all
Will ever you
Forgive us all?
Noah's ark? Not this time
Reverse the course and stop the crime**

{Break}

**We enslaved our Mother Nature
And exploited for pathetic tasks
She is dying
She is dying now
She is dying**

But will reborn

{Instrumental Bridge}

{Break}

And one day we will lose it all

When we see her tortured corpse in front of us

She is dying

But will reborn!

{Outro}

Thunderstorm is coming

To level us all to the ground
