

## **Manapart - Nautilus**

**{Verse 1}**

**You were everything to me my love my friend  
I still feel your presence in the air  
But I lost my hope to hear from you and  
Share the stories which are dead and sad  
Who will share with me my happiness and grief  
Who will share with me the hardest road  
Just Imagine what our lives could be if you  
Didn't leave us for another world  
We were young and we have made just some mistakes  
I will kill the one who lies they've not  
We were strong enough to speak of everything  
No I cannot say a single word**

**{Bridge}**

**Have a feeling I was slammed by cosmic storm  
Though in emptiness I just remain  
There is noise of silence that's surrounding me  
And the teardrops of the eternal rain**

**{Chours}**

**Goodbye my friend  
Goodbye my friend  
So many words you've left unspoken  
So many lives this loss has broken  
Goodbye my friend  
Oh Goodbye my friend  
Sometimes life is so extreme and hard  
It gives it takes it's ripping our hearts**

**{Bridge}**

**No light in room**

Thoughts of our doom  
Torturing me  
I wish my scream will make me free

{Break}

I am here you are not you are gone  
Doesn't matter anymore what you've done  
Universe is collapsing in me  
Universe is collapsing in me

{Bridge}

I am here you are not you are gone  
Doesn't matter anymore what you've done  
Universe is collapsing in me  
I wish my scream will make me free

{Chours}

Goodbye my friend  
Goodbye my friend  
So many words you've left unspoken  
So many lives this loss has broken  
Goodbye my friend  
Oh goodbye my friend  
Sometimes life is so extreme and hard  
It gives it takes it's ripping our hearts
