

# Gothic Psychology - My Only Friend

{verse 1}

Oh, these people  
Keep on leaving  
Except you  
Your my only friend  
So please stay  
If you stay  
I promise I'll  
Tell you funny stories  
And sing you pretty songs  
And we'll stay together  
Making money doing what we can  
Oh well

{Chorus}

I thought I had a friend  
But she was just pretend  
I thought you were my friend  
But all things have to end

{verse 2}

There's no angel on my shoulder  
I'm the center of the empty void  
Please don't leave even if what's  
You feel need to do  
Everyone has left me alone  
No one calls me on the phone  
Even all the people who said they'd stay  
Why does life have to be this way?

{Chorus}

I thought I had a friend

**But she was just pretend  
I thought you were my friend  
But all things have to end**

**I thought I had a friend  
But she was just pretend  
I thought you were my friend  
But all things have to end**

**I thought I had a friend  
But she was just pretend  
I thought you were my friend  
But all things have to end**
