

YNKEUMALICE - Over the moon

**I'm over the moon
I happy about tunes
Thinking about love
Thinking about life
Underrated love
I feel shitless
Feel like gave my heart but fuck it
It was life you was the grim reaper
Stole my heart killed it
I'm over the moon
You gone
Gone gone gone**

**Over moon
About money
Over the moon
About new shit
Expensive shit
Trying to go all in my plans
Like it's world domination
Take in consideration
I'm the up next new face of the generation
Feel likÐµ burry me in a sarcophagus
Fuck her whole Ðµsophagus**

**I'm over the moon
I happy about tunes
Thinking about love
Thinking about life
Underrated love
I feel shitless**

Feel like gave my heart but fuck it

It was life you was the grim reaper

Stole my heart killed it

I'm over the moon

You gone

Gone gone gone
