

YNKEUMALICE - Moonstruck

**Fall in love with the night
Take you in the night
I catch you on the dark side
Take you to the dark side
Want to take you all the way
Want to fuck you so good
Want to fuck it so good
Fall in love with the night
Take you out for the night**

**Love under the moonlight
Love under the stars
Love so right
Feel like your my one and one moon
Feel like your my blue moon love
Feel like you and I
Touch the sky**

**Fall in love with the night
Take you in the night
I catch you on the dark side
Take you to the dark side
Want to take you all the way
Want to fuck you so good
Want to fuck it so good
Fall in love with thĐµ night
Take you out for the night**
