

## **Lock Modern - Dust**

**{Chorus/Intro}**

**I watch the clock, it's ticking down  
It's just a wasteland now  
Sunsets in a cloud of dust  
No hope for the two of us  
I'm sorry if this is where it ends  
I'm glad that you and I were friends**

**{Verse 1}**

**Whatever time it takes  
Fate takes place every time of day  
Your mind takes time, makes time  
Take away another day  
Get your pay, and away just to say  
You're alive, you survived  
Another instance where you could've died  
Our time is here, but it's here on a loan  
And you are not here all on your own  
It's like I'm holding a key, but I am the lock  
Don't give up when there's time on the clock  
Find time for peace of mind like a walk  
On the moon, Mars  
Or the stars**

**{Chorus}**

**I watch the clock, it's ticking down  
It's just a wasteland now  
Sunsets in a cloud of dust  
No hope for the two of us  
I'm sorry if this is where it ends  
I'm glad that you and I were friends**

**{Verse 2}**

**When it gets cold**

**When it gets hot**

**The world turns, we get old**

**And try not to get got**

**It's just a thought, but let me dive right in**

**I fought the fight along with Poseidon**

**To save the world that we reside in**

**Only to decide in time**

**That violence is colliding**

**With the means to live**

**In peace**

**Instead, we're secretive**

**Language serves as a wall**

**In between us all**

**To dissolve what it all really means**

**{Chorus/Outro}**

**I watch the clock, it's ticking down**

**It's just a wasteland now**

**Sunsets in a cloud of dust**

**No hope for the two of us**

**I'm sorry if this is where it ends**

**I'm glad that you and I were friends**
