

Gothic Psychology - Caffeinate

(Intro)

Wake up

Wake up

Wake up

Wake up

Wake up

Wake up

Wake up

Wake up

Wake up please

(Verse 1)

I can't go home, I get to bored

My head's like a dome, I wanna be adored

And I'll take all the blame

Even if it leads with shame

(Chorus)

I want a good song with a catchy chorus

Funky beats and some better words

New chord progressions, nothing like you've heard

I'm in my head too much for my own good

I want a good song with a catchy chorus

Funky beats and some better words

New chord progressions, nothing like you've heard

I'm in my head too much for my own good

(Verse 2)

I write a list just to tear it down

I want to leave my home town

I don't know who I am (huh?)

I don't know who I'm not

(Chorus)

I want a good song with a catchy chorus

Funky beats and some better words

New chord progressions, nothing like you've heard

I'm in my head too much for my own good

I want a good song with a catchy chorus

Funky beats and some better words

New chord progressions, nothing like you've heard

I'm in my head too much for my own good

(Instrumental break)

(Outro)

To be a better poet I'll write words on my hand

You really need to know it before you understand

To be a better poet I'll write words on my hand

You really need to know it before you understand

To be a better poet I'll write words on my hand

You really need to know it before you understand

To be a better poet I'll write words on my hand

You really need to know it before you understand
