

Crabb Family - Smile Again

**When you're at your darkest moment and the journey seems so long
Worry overwhelms you and you feel so all alone
The Lord is there to help you just kneel before his throne
Gracious is the Father, with him you can go on**

**So smile again, wipe the tears from your eyes
Run through that valley and leave the past behind
Give your burdens to Jesus, a mountaintop you'll find**

**Right now your situation may seem to hard to face
Your questions have no answers and you feel so out of place
But he's right there beside you, he's clinging to your hand
So keep pressing forward til' you reach the end**

**Understanding trials is sometimes hard to do
But the answer to your question, he is there with you**
