

## **Crabb Family - God's Hand of Wrath**

**Backslider you're in danger, you better heed the warning call  
God's gonna give you a whipping, you've been running for too long  
You think that he's forgotten the promises you made  
Child, God has your number and he'll deal with you someday**

**Hear this plea, this warning call  
Ahead there's danger and you're sure to fall  
Seek out the old ways, the righteous path  
Lest you should witness God's hand of wrath**

**Remember your sweet Mother, Oh! How she used to pray  
She brought you to the knowledge of the good and righteous way  
Your new friends you have chosen scorned the vows you made  
They've now become the influence that's made you go astray**
