

Gothic Psychology - Vitamins

(Verse 1)

**Life doesn't feel real, I wake up
And my vision blurs out of my mind
You never felt real, your hugs
And your kisses meant nothing to me
The air is poisoned, also the water's bad
Trust me i tried it too
Carbon monoxide kill me quickly
With these vapors of freedom**

(Chorus)

**I space out of my head
To get away you'll find me dead
Walking along the river
As a ghost in ghostly form**

(Verse 2)

**Follow me quickly, quirky
Cliche catchy phrase
I need nothing to do with you
I never wanted any of this
So please me tell mĐµ why
When I put it up my nose
It makes mĐµ feel so high**

(Chorus)

**I space out of my head
To get away you'll find me dead
Walking along the river
As a ghost in ghostly form**

(Verse 3)

I got kicked out of home
Am I on the streets alone?
I'm not really ready for life
Are we truly ready for the strife?
Let's pretend we're not who we are
Let's get in this car and travel so far
I didn't mean to do this
I don't wanna do this anymore

(Verse 4)

I take these vitamins everyday
They make feel such a good way
But everybody tells me to stop
But I never see a reason why
I take these vitamins everyday
I feel need to take more each day
And now I never feel that
Enough is enough

{refrain}

Now we grind up our pills
We inhale through the nose
And we scream out in pain
I got you into vitamins
They keep on taking more from us
I keep on taking more and more
I finally feel something again
But these people keep asking
And I keep denying
Yeah I'm on my own
I know I'm alone
I need to take my vitamins

(Chorus)

I space out of my head
To get away you'll find me dead
Walking along the river
As a ghost in ghostly form

(Guitar Solo)

(Outro)

I'm not crazy
You're just crazy
I'm not crazy
You're just crazy
I'm not crazy
You're just crazy
I'm not crazy
You're just crazy
