

Gothic Psychology - What About Me?

(Verse 1)

**The circle moves on and on
But I'm lost, can't find my way
Tiny cities in my head, in my heart
Looking for a way to restart**

(Chorus)

**Everyone makes me who they want me to be
Everyone's laughing but what about me
Everything will end eventually
Slow down, slow down**

**Everyone makes me who they want me to be
Everyone's laughing but what about me
Everything will end eventually
Slow down, slow down**

(Verse 2)

**I want a fruitless ambition
So you'll never leave me alone again
I want to be larger than life
So why am I locked inside of my heart?**

(Chorus)

**Everyone makes me who they want me to be
Everyone's laughing but what about me
Everything will end eventually
Slow down, slow down
Everyone makes me who they want me to be
Everyone's laughing but what about me
Everything will end eventually**

Slow down, slow down

(Bridge)

I can't sleep inside of my mind

I can't work inside my heart

I can't think inside of my eyes

I don't wanna do this anymore

(Verse 3)

I wish I was smarter than you

I'd prove every point, deny every lie

I wish I was handsome for you

Because I disappoint just by combing my hair

(Verse 4)

I want some control of my life

So I knew what was coming at every turn

I wish I wasn't me just floating along

I could finally be

(Verse 5)

I crave to be perfect, you know?

Then why am I fucking ugly? And why am I sad?

I guess this is just what I am

I'm stuck in this shell, and stuck in my life

(Chorus)

Everyone makes me who they want me to be

Everyone's laughing but what about me

Everything will end eventually

Slow down, slow down

Everyone makes me who they want me to be

Everyone's laughing but what about me

Everything will end eventually

Slow down, slow down

Everyone makes me who they want me to be

Everyone's laughing but what about me

Everything will end eventually

Slow down, slow down

Everyone makes me who they want me to be

Everyone's laughing but what about me

Everything will end eventually

Slow down, slow down

(Instrumental Outro)
