

Whasianweeb - Cry Baby by Melanie Martinez

{Intro, spoken: Gangle, Jax}

Hahaha! Now I'm finally free from that hell! How does it feel now, Jax?

Gangle, please. I'm so sorry! I'll do anything if you'll just let me go

Hmmmâ€¦

{Verse 1}

I seem to replace

My brain with my heart

Takes only one push

And then I break to shards

I try to stay sane

But before I can start

Those cry baby tears

Come out of the dark

{Pre-Chorus}

You're always turning the handle

To that faucet in my eyes

They're pouring out

Where everyone can see

Your heart's too small for your body

It's why you're not ever liked

You make me cry

Where everyone can see

{Chorus}

You call me cry baby, cry baby

But I don't fucking care

Cry baby, cry baby

So you laugh over my tears

Cry baby, cry baby

'Cause you don't fucking care

Tears fall to the ground

I'll just let you drown

{Post-Chorus}

I'll just let you drown

Cry baby, cry baby

{Verse 2}

I'm all on my own and

I'm still stuck with you

I tell myself that

It's not me, it's you

I'm one of a kind

That no one understands

But those cry baby tears

Keep coming back again

{Pre-Chorus}

You're always turning the handle

To that faucet in my eyes

They're pouring out

Where everyone can see

Your heart's too small for your body

It's why you're not ever liked

You make me cry

Where everyone can see

{Chorus}

You call me cry baby, cry baby

But I don't fucking care

Cry baby, cry baby

So you laugh over my tears

Cry baby, cry baby

'Cause you don't fucking care

Tears fall to the ground

I'll just let you drown

{Post-Chorus}

Cry baby, cry baby

I'll just let you drown

Cry baby, cry baby

I'll just let you drown

{Bridge}

I look at you and I see myself

And I know you better than anyone else

And you have the same faucet in your eyes

So your tears are mine

{Chorus}

They call you cry baby, cry baby

But you don't fucking care

Cry baby, cry baby

So you laugh through your tears

Cry baby, cry baby

'Cause you don't fucking care

Tears fall to the ground

You just let them drown

{Outro}

Cry baby, cry baby

I'll just let you drown

Cry baby, cry baby

You just let them drown

Cry baby, cry baby

I'll just let you drown

Cry baby, cry baby

You just let them drown
