

## **Alec Normal - Music Makers Make Me Sad**

**(can you hold my)**

**Meditate on me dear**

**And we'll bring it to end**

**Hold me close until you're gone**

**So i can pretend**

**And i would live one-hundred lives**

**Just to love you again**

**You're so far from my heart**

**But you're still trapped within**

**One day, i say "hooray!"**

**But the next you're falling in love without me**

**One, two, and i buckle my shoe**

**Next thing i know, you're falling in love without me**

**Music makers make me mad**

**But you're the one who makes me sad**

**(i take that back!)**

**Music makers make me mad**

**But we're the ones who make me sad**

**(i take that back!)**

**If i was meant to feel endorphins**

**If i was given wings to fly**

**Why do you make me feel like an orphan?**

**Why do you make me want to die?**

**Cause i know that i'm going astray**

**And i'm sorry that it happened today**

**Cause i'm one in a million sands**

**That wants to stop and hold your hand**

**Excuse me, when did i deserve that?**

**I don't know**

**And from here on out, where am i supposed to go?**

**No clue**

**I seemed to have looked around every corner**

**I know that feeling**

**But i just as much, don't know!**

**Yeah, i don't know either**

**Excuse me, when did i deserve that?**

**I don't know**

**And from here on out, where am i supposed to go?**

**No clue**

**I seemed to have looked around every corner**

**I know that feeling**

**But i just as much, don't know!**

**Yeah, i don't know either**

**Don't be late, i'll make it clear**

**I'm going to bed**

**But jokes on me, i'm awake**

**You're with him instead**

**And i cannot believe my eyes**

**This isn't the end**

**I've been praying hard for this**

**You're with me again**

**With me again**

**With me again**

**With me again!**

**And i don't have to think you're falling in love without me**

**And i don't have to think you're falling in love without me**

**With me again!**

**Music makers make me mad**

**But you're the one who makes me sad**

**(i take that back!)**

**Music makers make me mad**

**But i'm the one who makes me sad**

**(i take that back!)**
