

Saber - It's hard

Hook: x2

Yeah, my nigga it's been hard, yeah, it's still hard

The problem has always been, where to, after we start

Nobody has ever learnt the way, that's why we never make it that far

Tryna get my people up

It's all love

Verse 1:

Yeah, It's all love

Life has been so tough

My parents named me Zanele, to say it's enough

Boys, we gotta make sure, the next generation, believe they are winners

Alotta ministers, and councillors, but still lack leaders

That's why I ain't never fuck with politics

They only cover whom they rolling with

Everybody wanna claim their piece

Nobody really wanna stand for peace

Give me a couple'a years, I swear I'm gonna flip this place

And show them

Verse 2:

Kgale ke try'a ho pusha ntwana kasi pineng tsa ka

Ba itse ke eme hanyane ka sekgowa, maybe ba tla di bamba

Ha sore ha ba se tsebe, mare ka puo ya kasi ba tla mfeel'a

Indaba re morao haholo, the whole world sa le e re siya

Khona ke understand'ang today, why Ntate Lethoko, a na dula a ichaya bruh ya ka

Batho ba feta moo o leng thata, ba pope, mare ha ba jekele kasi ho tlo inspire'a

Batho ha ba tsebe, they stand for what lefatsheng mona; pushwa ke desire

Re bua haholo feela, ka di struggles tsa kasi, 'cause ha re so be shap'o

Once le ba shapo, y'all cut all the ties, lekgaola dithapo

Tlametse ho be easy for batlang, ba ska hula ka las'

I hope this song e tlohe ka hii, e be fihle le ka Mqash

Outro:

**I hope it's starts in your ears, and stays in your heart
Way before load shedding, my people been in the dark
Years after Just a Shot, still tryna ignite that spark
If you been low for some time, they only way to go is up**
