

## **Foxfredito - Tonight**

**Hey lady**

**Saw you standing there across the room**

**Eyes shining like a diamond**

**Took a deep breath**

**I tried to play it cool**

**But my heart was racing**

**Like a reckless fool**

**I was stumbling up on my words**

**Hoping for a chance**

**Girl to just make you my girl**

**Every word you say**

**Every laugh you share**

**Got me falling harder**

**Got me wanting to dare**

**Leaned in closer**

**Whispered in your ear**

**Hey bae**

**Can I take you home let's get out of here**

**Hey there girl can I take you out tonight**

**Wanna see the world with you right by my side**

**We'll dance til dawn under the stars so bright**

**Just give me a chance and I'll make it all right**

**Bought you a drink**

**Tried to break the ice**

**You laughed and said**

**Boy, what you tryna do?**

**We talked for hours**

**Bout dreams and fears**

**Felt like I've known you for a thousand years  
Never wanting this night to ever end  
Every word you say  
Every laugh you share  
Got me falling harder  
Got me wanting to dare  
Leaned in closer  
Whispered in your ear  
Hey bae  
Can I take you home let's get out of here**

**Hey there girl can I take you out tonight  
Wanna see the world with you right by my side  
We'll dance til dawn under the stars so bright  
Just give me a chance and I'll make it all right**
