I wanna feel your body

Hold me closely

Don't let me sleep

Don't let me breathe

Wanna feel your body

Don't let me die

Don't let me lie

Don't let me down

Don't let me fly

Take back your life

I've fallen and died

Walked across the line

I wanna feel your body

Hold me closely

Don't let me sleep

Don't let me breathe

What if i was tortured and broken

And had i demons looming over me

Would you

Want it

I, i want it

Want it

I, i want it

I had to fly

I will not die

Left out to dry

I will not suicide

But i wanna die

Life is a lie

What if you were to die

Killed like a fly

What if it was i

That was left outside

Covered in ice

You will decide
