

Jordan Brynn - This is a Break Up

{Verse 1}

**It's a good day to live halfway
Across the country from your boyfriend
Well, my ex-boyfriend
'Cause I know he'd be at my door
And if I'm honest I don't really wanna talk anymore to my boyfriend
My ex-boyfriend**

{Pre-Chorus}

**'Cause if face to face he has to hear
Why I just broke it off after two long years
I don't think he could take it
No easy way to say this but**

{Chorus}

**I don't like you anymore
You were great but I kind of got bored
You were perfect for the time
But a heart's gotta break and it won't be mine
I don't like you, let's be done
You were cool, yeah, we had a good run
Nobody's fault, just bad luck
So don't break down, but this is a break up**

{Verse 2}

**It's a good night for my phone to die
So I can't answer calls from my boyfriend
My ex-boyfriend
And I know I'm supposed to feel bad
But we don't need two of us doing this little crying thing
It's so sad**

But just to make sure we're clear that

{Chorus}

I don't like you anymore

You were great but I kind of got bored

You were perfect for the time

But a heart's gotta break and it won't be mine

I don't like you, let's be done

You were cool, yeah, we had a good run

Nobody's fault, just bad luck

So don't break down, but this is a break up

So don't break down, but this is a break up

{Bridge}

Don't come to town being all torn up

Just let it be over

Don't ask for closure

Then I'd have to say

{Chorus}

I don't like you anymore

You were great but I, I got bored

You were perfect for the time

But a heart's gotta break and it won't be mine

I don't like you, let's be done

You were cool, yeah, we had a good run

Nobody's fault, just bad luck

So don't break down, but this is a break up

I don't like you anymore

You were great but I kind of got bored

You were perfect for the time

But a heart's gotta break and it won't be mine

I don't like you, let's be done

You were cool, yeah, we had a good run

Nobody's fault, just bad luck

So don't break down, but this is a break up

{Outro}

It's a good day to live halfway

Across the country from your boyfriend

Well, my ex-boyfriend
