

Foxes on the Run - Lab Rat

{Verse}

So, you wanna end it all?

There's nothing left to do, just stare at a blood pool

Lies, circling around your eyes

Blinded from the world, you can't see your soul

{Chorus}

Falling from grace, brand new coat of snow

Gotta start anew, you can't lose the glow

{Verse}

Fight, claw your way out through the night

Stuck inside a maze, turning all your heart to waste

Drown, let the tears inside

Deeper in the abyss, taking those who loved you with

{Chorus}

Falling from grace, brand new coat of snow

Gotta start anew, you can't lose the glow

{Middle 8}

Your life, stuck inside

Lab rat, misled by lies

Controlled by a few, with nothing to lose

Raised in pew, but can you break through?

{Chorus}

Falling from grace, drowning inside

Gotta start anew

Gotta hit your stride
