

Paradox Obscur - Coal and Dust

**I followed this path
Where the place is barren**

**A frozen landscape
In time of dust**

**Your eyes are wet
Your mouth is dumb**

**Windows are closed
And hope so far**

**Say that never came
Everything is a lie**

**Memories are empty
And people without a heart**

**I followed this path
Where the place is on fire**

**Everything in coal and dust
Only your eyes stay alive**
