

Rustage - Avatar

{Verse one: Rustage}

They know my name my face

They see I raise the stakes

I got them talking even in the walls of Ba Sing Se

Light up I'm changing {?}

I'm one to play with fate

Just like the earth queen how I'm gonna take their breath away

{?}

And I'm back again like I'm Sokka

{?} seeing who's stronger

Man like Zuko talk about honor

{?}

Breaking backs changing their posture

We ain't even of the same genre

You are not a part of my roster

They wanna move {?} like pebbles

I gone bend thĐµir metal

Iroh flow gonna blow like kettlĐµs

Moving blood and vessels

You're getting brought down to my level

Move the ground they tremble

I'm so fly like bisons

{PreChorus: HalaCG}

You and me live and breathe in my element

Never fall give it all we're accelerant

In the state I create you're irrelevant

{?} messing with me

{Chorus: HalaCG}

Jumping in now they're out of luck

{?} there's no catching us

Grab the fire shake the world {?}
Grab my hand join my team I'm the avatar
I'm the avatar
I'm the avatar

{Verse 2: Rustage}

Standing up on my own feet
I be moving like {?}
I got fans of me like Kyoshi
Know {?} as he chose me
Keep on talking down in the library
'cus their knowledge base is below me
I be redirecting their lightning
But {?} show me
Leave em white like Suki
King of rock like Bumi
I'm a thing of beauty
You're more like the movie
You must be {?}
'cus you be moving loony
I gone move how Varrick move
And do the thing like Zhu Li
{?} I want it
Like I'm Azula and this track gone be my Sozin's comet
Unalaq convert my bars until they flow harmonic
And I gone leave em like they Aang they looking frozen solid
{Chorus: HalaCG}
Jumping in now they're out of luck
{?} there's no catching us
Grab the fire shake the world {?}
Grab my hand join my team I'm the avatar
I'm the avatar
I'm the avatar

{Bridge: Rustage}

{?}

{PreChorus: HalaCG}

You and me live and breathe in my element

Never fall give it all we're accelerant

In the state I create you're irrelevant

{?} messing with me

{Chorus: HalaCG}

Jumping in now they're out of luck

{?} there's no catching us

Grab the fire shake the world {?}

Grab my hand join my team I'm the avatar

I'm the avatar
