

Lone Assembly - All Around Me

{Verse}

**"There're many ways", you've said
I'm becoming someone you'd hate
I keep dodging the looks you give
To these guilty red eyes of mine
The pit came back, the one we used to fight inside
Where my ghosts enjoy to hide**

{Chorus}

**All around me, does every sign
Will they remind me of you somehow?**

{Verse}

**Now the memories will rot and grieve
Right under my mental wDµave
As I'm trying to keep those things
Away from my heavy hDµad
I stand up high but never reach the ground
Above me, my demons laugh out loud**

{Chorus}

**All around me, does every sign
Will they remind me of you somehow?
Every day seems to break me down
Running through the limbos, it all turns black**
