

Gravebirth - Mission Statement

{Intro}

Steel City misery

{Verse 1}

**This is a mission statement, may you feel every word
And spread transmissions of misery upon this world**

**In birth and death, generations embrace
All fate is the same, there is no saving grace
We were meant to suffer until we take our last breath
And I can't wait for death to bring me life again**

**We have come to collect what was always ours
To all who oppose usâ€™ fall the fuck in line**

**Born in the grave is an understatement
So reopen the scars and let my demons out to play**
