

Gravebirth - Burn Unit

{Verse 1}

**Drag me to hell, I haven't been myself
I can't remember the last time I felt all was well
I will burn for what I am
Ashes to ashes, dust into dust
Place my body in the shape of the cross
Sacrifice me for what I've become
Apathetic, narcissistic, hellbent to die alone
A temperament permanently etched in stone**

{Verse 2}

**The part of me that smolders is
That I can't undo the things that I've done
Live and die with remembrance
Of those I've forced away and locked out
I will atone for my past actions
Light me aflame at the stake and watch as I turn to embers
Let me burn, it's what I deserve**

{Verse 3}

**Ash to ash, dust to dust
Life to death, I'll meet my end
Ash to ash, dust to dust
Life to death, I'll meet my end**

**Incinerate me, cremated by hatred
Incinerate me, cremated by hatred
Ash to ash, dust to dust
Life to death, I'll meet my end**
