

Jordan Max - Almost Made Me Hate Myself

Oh yeah yeah yeah

Oh yeah yeah

{verse 1}

I haven't had my peak cause there's no rest for me

I don't need more problems cause everyone's got them

You wanna test my faith?

I call it destiny

More people are lost with no one to guide them

As i sail the seas more mountains i can see

On the way to the top i came from the bottom

Feel the ocean breeze

I find the peace i need

Survive the wave while everyone's drowning

{pre-chorus}

Sometimes i look around for love

From lost to found i found my love

{chorus}

You almost made me hate myself

You was trying to take my health

You almost succeeded when my heart was bleeding

{verse 2}

I've been from high to low

I was all alone

Now i'm in the zone

Thank the lord i'm still living

**I feel it in my bones
Protect my ozone
Watch my orbit round the planet
Strong now i won't give in**

**Young birds will leave their flying overseas
Find a new place away from this island
Not only love i need to build the strength in me
I'm tired of pain i leave that behind me**

**I've already been deceived
How could you lie to me
No pointing the blame now i'm going harder**

**Now i'm left with me
I move at godspeed
Not scared of the shame each day i get smarter**

**Let down
No i won't be let down
No i won't be let down
Won't let myself down
Keep from going round**

{chorus}

**You almost made me hate myself
You was trying to take my health
You almost made me hate myself
You was trying to take my health
You almost succeeded when my heart was bleeding**

{pre-chorus}

Sometimes i look around for love

From lost to found i found my love

{chorus}

You almost made me hate myself

You was trying to take my health

You almost made me hate myself

You was trying to take my health

You almost succeeded when my heart was bleeding

You almost made me hate myself
