

Gravebirth - Progenitor

{Verse 1}

**I refuse to sing psalms of making amends
I've been ordained to preach sermons of true hatred
Keep praying 'til you stop breathing
You will never be absolved**

{Verse 2}

**Denied at birth, neglected for life
No forgiveness, never forget
I'd rather bury the hatchet in the side of your head**

**This is an open letter to whom it may concern
I may carry your blood in my veins
But I will never breed a clone of your caliber**

{Verse 3}

**This is the penance paid for spitting on the olive branch
There is no such thing as a second chance**

What a prime example of a parasitic progenitor abandoning the offspring

{Breakdown}

**As you fornicate and procreate like a dog in heat
As your illegitimate spawns follow the path you paved
I'll be the seed that breaks the fucking mold
You're just an ant in the afterbirth of a discarded progeny
You're just an ant in the afterbirth of a discarded progeny**
