

Derek Pope - Nothing at All

{Verse 1}

**Don't shoot the messenger
He's got his hands up like the rest of us
We trade our dark thoughts for chemicals
Just to get back to the start
Of what we are
Talking animals
But you'll get far
Denying everything**

{Chorus}

**And when you don't feel nothing at all
It's not
Nothing when the
Ghosts come right through the wall
They don't
Stop for nothing
No, you're all that i want
A broken piece of something
Not quite nothing at all
But then I'd know**

{Verse 2}

**Jump off the merry-go
I wanna hear my thoughts in stereo
I wanna be your main scenario
In a one way out of town
Don't come around
You'll be a trophy now
For someone's house
You wanted everything**

{Bridge}

Come undone

Hang by me

One by one

They all get what's coming, get what's coming

{Chorus}

And when you don't feel nothing at all

It's not

Nothing when the

Ghosts come right through the wall

They don't

Stop for nothing

No, you're all that i want

A broken piece of something

Not quite nothing at all

But then I'd know
