

Derek Pope - Out of My Hands

{Verse 1}

**Don't you know the end is not coming
It's already here so start running
Spend your time like most of your money
Wasted just to try to feel something
Ooh, there's nothing I can do
But be on my own now
A step in a footprint
I been here before
It doesn't look the same at all
But then it never does**

{Chorus}

**Out of my hands, out of my hands
Out of my hands, out of my hands
Out of my hands, out of my hands
Out of my hands, out of my hands**

{Verse 2}

**Don't you know the world is still turning
Over in its grave
Won't be long before it's all gone
So count our lucky days
You know that it's true (ooh)
There's nothing I can do
But be in control now
A step in a footprint
I been here before
It doesn't look the same at all
But then it never does**

{Chorus}

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands

Out of my hands, out of my hands
