

## **Derek Pope - House of Mirrors**

**{Verse}**

**My eyes can't go anywhere but you  
You say things won't ever change but they do  
Haunted inside  
I'll put down the tracks if you get on the ride  
Run for our lives  
Staying here's a danger  
Got nowhere that we can hide**

**{Chorus}**

**It's a horror to hold on  
Hold on waiting for light  
It's a nightmare to make it  
Make it all through the night  
It's a horror to hold on  
Hold on waiting for light  
It's a nightmare to make it  
Make it all through the night**

**{Bridge}**

**House of mirrors, showing all our fears  
From when we were young  
From when it was clear  
We just boarded up like we weren't here  
We just boarded up like we weren't here  
House of mirrors, showing all our fears  
From when we were young  
From when it was clear  
We just boarded up like we weren't here  
We just boarded up like we weren't here  
House of mirrors, showing all our fears**

**From when we were young**

**From when it was clear**

**We just boarded up like we weren't here**

**We just boarded up like we weren't here**
