

K Lejind - The Comeback

**You'll get anxiety the way I put a ritalin words
They can't stomach me nor have the guts for the shit that occurs
I put my heart into the bars so while you sit and observe
It's hard to digest the way I De-liver a verse now listen
It's K Lejind bitch I ain't a myth don't aim to miss
But once I put my paper together I'll be a staple bitch
You gotta hand it me the way that I be dis-mantling these
Wack rappers on wax they couldn't hold a candle to me
No discussion you nothing hard just dysfunction
Told my family I'm coming addam because I'm it cousin
I'm disgusting won't fade away when it comes to lead
All my bars linĐµ up perfect I'm hair and i'm cutting edgĐµ
I got yo numbers like days on your calendar
I go against the grain man you just ain't on my caliber
They wanna Dodge me on this Journey Afraid of the challenger
But I'm invading your space bruh but ain't playing no galaga
This nuclear flow that blew through speakers
I got reactors all ready for the smoke like I'm Fukushima
Ain't nobody fucking with me when It comes to bars
When I started coming in this bitch they knew I was fucking raw
They enjoying the feast that's when I cook for the rest
You wanna join in to eat but never took me to prep
They love my voice on a beat they be like â€œlook he's the bestâ€•
Y'all wanna force me for feats that's when I put em in check
The best overall and the cloth different
You ain't seen an indy with formula like this since
Scott Dixon so stop tripping
On the back burner with that beef on deck
But it's impossible to meet me I'm beyond fresh Lejind**
