

Citizens - Morning Glory

Intro - 8 bars

Interlude - 8 bars

Verse 1 - 16 bars

**You've got it caught in the motions
But it's so out of your hands
I know it feels like it's working
But that's an anxious defence
It's ok, alright
Just let go, and realise
There is a power in weakness
You'll never know holding tight**

Chorus - 16 bars

**Morning glory, don't you worry
Just begin
It's the dawn of something better
Morning glory, don't you worry
Take a breath
Feel that sweet surrender**

Verse 2 - 16 bars

**Love is a left-handed power
Ready to carry the fear
So you can lower your shoulders
Because your freedom is here
You're ok, alright
Just let go, and revive
Nobody wants to be tired
Come on and rest in the Light**

(Yeah! Yeah! Yeah!)

Chorus - 16 bars

Morning glory, don't you worry

Just begin

It's the dawn of something better

Morning glory, don't you worry

Take a breath

Feel that sweet surrender

Interlude - 4 bars

Bridge 1 - 16 bars

Fly like a sparrow, dance like the wind

Sing like a child that doesn't know what a chain is

They just do it 'cause they can't keep it in

Heart like a holiday, hands like a branch

Mind like a door that you wanna keep open

Nobody knows what's to come

Bridge 2 - 16 bars

Laugh like a mother, sleep like a stone

Cry like a father that's not afraid to be known

Imagine what happens when we finally let go

Breath like you know to, hope like you can

There's a beauty on the other side if you just let it happen

No, don't you worry now, now

There's a chance to start again

Outro - fade-off
