

Logy1 - Ice Hot

{Chorus: Logy1}

Ice hot, Ice hot, Ice hot, Yeah

Ice hot, Ice hot, Ice hot, Yeah

Diamond ice can freeze it. Hot diamonds can relieve it

Ice camouflages with it. Hot Diamond can fix it

{Verse 1: Logy1}

How much distance is paid? I can move smart to play

Haters I want to replay. A good life makes for a great day

Keep the burn to my day. Bad bitch, please don't say it

When I slide, when I ride. keep the fire burning is key

They act like without a mission with secret deaths

Break the rules, make money with thĐµ devil lie

I think I can run, with God, and make it fly

I'm with thĐµ gang, fuck the matrix, print money now

They could fake it and he could leak it too. (Wop)

I know the ways and pay, jumping with the color crew. (Soo)

Start moving hard, camera two scenes, Andrew

Blueprint with all the money, I can measure too

{Chorus: Logy1}

Ice hot, Ice hot, Ice hot, Yeah

Ice hot, Ice hot, Ice hot, Yeah

Diamond ice can freeze it. Hot diamonds can relieve it

Ice camouflages with it. Hot Diamond can fix it
