

YUNGBLUD - Breakdown.

{Chorus}

**I've been fightin' the changes
Tearin' my heart out
Wantin' to die before I open my eyes
Been fightin' the changes
Tearin' my heart out
Wantin' to die before I open my eyes**

{Verse 1}

**Go around the bend before the sun comes up
Things in my head just don't line up
Don't wanna leave my bed 'cause if I do, I feel like I'll die
Go around the bend before the sun comes up
Things in my head just don't line up
Don't wanna leave my bed 'cause every time I do, I feel like**

{Chorus}

**I've been fightin' the changes
Tearin' my heart out
Wantin' to die before I'm livin' my life
Been fightin' the changes
Tearin' my heart out
Wantin' to die before I**

Don't forget to put your feet in the grass

Tell your mum that you love her, say that you cleaned up your act

Give money to the homeless man, help him buy a bar

When you're buying your morning coffee, ask them how they are

God save the Sunday morning, pray for me on the Saturday night

Talk polite, don't start fights, don't tell lies

That's for the people with oblivious shortsight

One day we'll meet, man, and I'll say, "Alright"

See the world is pretty big, man, but don't feel small in it

Sometimes you lose a number, but I swear you're still callin' it

I promise you it'll be alright in the end

Fuck the depression, it's all in your head

Stay with your friends and walk up the hill at quarter to 6 in the morning

Take in the air while everyone else is still snoring

Express yourself with your friends, they'll save your life, you know

Everything's about connection, you don't have to be alone

{Chorus}
