

Benevolent Sin - God Won't Love Us

{Chorus}

**Why should anyone have any love for someone like me?
Stupid pussy boy looking for dick out in the white sea
Rapping on that go and fucking die already type beat
Sinning day and night just waiting for the lord to smite me**

{Verse 1}

**If God won't love us, who will?
I lose my love in those pills
Take Prozac nightly
I know who to kill
The stupid queer that I'm attached to or those folks who won't chill
I've had a void within my soul that I've been fixing to fill
But it just keeps growing deeper
Drowning in the reverb
Sober to this point but I'll be turning to the reefer
Godless as this joint but I'll be praying for the reaper
Because when it's judgment day I'll face a fate that I don't deserve**

{Bridge}

**Cause if Dahmer repented before he died, he's in heaven
If you fuckers drive me to suicide, I'm in hell
Guess I should reposition the sights of my weapon
Cause if I gotta pick between you and I, wish you well
Got a brand new shipment of character flaws
So I can keep on having reasons to write
It seems the whole world's trying to disparage our cause
So I've been thinking I might give up the fight**

{Verse 2}

**Fight or flight
What you doing when you're in the iron sights?**

**Sleepless in my bed cause I know this could be my final night
I don't need your pity I am quite alright
I don't need your shitty explanations of what I should do to find the light
I don't need you here right now
I just need to fall asleep
I just need to be alone
I just need to die in peace
I just need to call my girl
She knows me more than I know me
I just need to live with you
Wrap me in your fantasy
Please**

{Refrain}

**Why should anyone have any love for someone like me?
Why should anyone have any love for someone like me?**
