

## **Benevolent Sin - Don't Go**

{intro}

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't-**

{verse 1}

**Questioning the shit i'll do away from you**

**See the fucked up shit that love and hate can do**

**Pay per view**

**Tickets to my suicide so i can buy a ticket to come stay with you**

**I'm just fucking scared that you won't wait a few**

**Years with this love of yours across the fucking country**

**Tragedy at distance just becomes so fucking funny**

**You're the only reason i've got left to keep mĐµ running**

**Give my soul to you**

**I do not want your fucking money**

**And no i don't want your status**

**I just want your status to be â€œtakĐµnâ€•**

**So i know you really care because right now i feel forsaken**

**For god's sake**

**You won't even let me share this relationship**

**Is it cause i'm not enough and you're too ashamed of it?**

**Tell me the truth**

**While i'm bleeding my youth**

**I invested all that i had but i'm still a recluse**

If this wasn't about love what i been giving to you?

I'm sure you really still care

I'm only missing the proof

{chorus}

So don't go, please

Loving from a distance has a price

Don't go, please

Don't leave me on my own i'll find a knife

Don't go, please

Now we're both living separate lives

And taught to never compromise

So i can't stay along your side

Don't go, please

Loving from a distance has a price

Don't go, please

Don't leave me on my own i'll find a knife

Don't go, please

Now we're both living separate lives

And taught to never compromise

So i can't stay along your side

{bridge}

Don't go, please

Don't go, please

Don't go, please

Don't go, please

{verse 2}

Now i ain't saying you're perfect

But you're perfect for me

I don't wanna see you leave

I just wanna see you, please

**Shit, you're perfect**

**Love so good i think i don't deserve it**

**I've been busy thinking that i'm worthless**

**What's my purpose?**

**I don't wanna be part of this earth shit**

**Vices of life are gripping me tightly i deserve it**

**Shit**

**Now i'm in business with some serpents**

**Send an sos and that shit's urgent**

**{refrain}**

**Don't go, please**

**Don't go, please**

**Don't go, please**

**Don't go, please**
