**{verse 1}**

**I'm not the boy that you cheated on**

**But got the same broken heart**

**Got the same broken heart**

**Worlds apart**

**But i guess it's best that you've been gone**

**But i still can't restart**

**No i still can't restart**

**I can't stand the way that we fall apart**

**Cherishing the work of art that is your body**

**I can't see the things you aren't**

**No**

**I just see an angel**

**From every different angle**

**But you've got a hateful halo**

**You and i were never stable**

**{bridge}**

**Constant negativity**

**Where i used to be**

**Getting outta that place now**

**I can't see the centerpiece**

**Don't know what is me**

**But i'm gonna find that out**

**I'm so numb to sympathy**

**You ain't getting me**

**Finally i let that shout**

**Tired of closing my mouth**

**I'm tired of closing my mouth**

**{pre-chorus}**

**Now i still ain't made it but i made it somewhere so much better**

**The man i used to be ain't here**

**He's gone forever**

**Colby's dead and gone**

**Thought we'd see my funeral before i dropped this album or this song**

**Guess i'm glad that i was wrong**

**{chorus}**

**I'm still wandering on  
Fighting right and wrong  
Colby's dead and gone  
Break of dawn  
Sing a mourning song  
Don't stop always  
Wandering on  
Fighting right and wrong  
Colby's dead and gone  
Colby's dead and gone  
Colby's dead and gone**

**Wandering on  
Fighting right and wrong  
Colby's dead and gone  
Break of dawn  
Sing a mourning song  
Don't stop always  
Wandering on  
Fighting right and wrong  
Colby's dead and gone  
Colby's dead and gone  
Colby's dead and gone**

**{bridge}**

**Colby's dead and gone  
Colby's dead and gone  
Dead and gone  
Dead and gone  
Dead and gone**

**{verse 2}**

**Say so long**

To the man in the frame  
Still it's long live stevesaintjames  
Bearing this pain  
We are not one and the same  
Can i really escape while he rots in my brain?  
I don't know  
I can't back what i claim  
But i cannot go back where i came from  
Still don't even know my name  
I still don't know my name  
And she feels just the same  
And she won't change her ways  
And she's been gone for days  
She said she needed space  
But i can't turn away  
I'm begging her to stay  
Don't know what else to say  
I just can't catch a break  
Each promise is erased  
I guess we're parting ways

{refrain}

When i locked eyes with that mysterious lady  
I couldn't keep my gaze away from her  
She's driving me crazy  
I really thought that this could work but things are changing up lately  
I'm realizing all your flaws and how you lied to me daily  
So now i'm saying bye to that mysterious lady  
We had some fun while it lasted but you're nothing but pain to me  
Because everything we built together all was just make believe  
I can't wait to make something of my own
