

koir - Remember2

**I got my feelings in my pocket
You say shut my mouth, but I can't lock it
Sex, money, drugs, that's just life and I want it
I know damn well if I leave you'll want me back
I had a {?}
She wanna come to my crib can't take you home
{?} from the heart, went out the {?}
It felt so good, that place it felt like home**

**When you hold something so close I just know that you will lose it
I wasted time on you, like how you had me up making music
Then you fucking said "we just friends," baby do you not remember?
Why you keep tryna flirt with me baby do you not remember?**

**I got my feelings in my pocket
You say shut my mouth, but I can't lock it
Sex, money, drugs, that's just life and I want it
I know damn well if I leave you'll want me back
I had a {?}
She wanna come to my crib can't take you home
{?} from the heart, went out the {?}
It felt so good, that place it felt like home**
