

## **Torkage - I Am the Poisoned Vial**

**This is an open invitation  
For a guided tour  
Come look upon me, within me  
Do you see anything there?  
NO!**

**An endless well of contempt  
Never once proven wrong  
Forever vindicated in my hate  
To all who dare to love me  
Drink deep of me!  
And choke on your final mistake  
I am the poisoned vial!**

**So they'll say  
How did we miss all the signs?  
How could we been so blind?  
So I say  
There is nothing to do  
I don't need to be saved  
Not by you...**

**Empty vessels without beauty  
A void that only corrodes  
So I'll fill your glass with poison  
And smile as you choke!  
Choke on mĐµ!**
