

YNKEUMALICE - Eumalice tentacion

With an xxxtentacion beat

(X)

Always love yourself

Always evolve and evolve

If your not your dead

Your brain is down

Remember

Know yourself first

Know your surrounds

Know that not everybody

Fucks with you

You need to learn to love yourself first

I know the fame changes

You hate to hear my name

Saying all we did was trust love

But broke hearts know love ain't it girl

Feel the same with love

It's fuck love fuck lies

Saying in the end it's all lies

I know the fame changes

You hate to hear my name

Saying all we did was trust love

But broke hearts know love ain't it girl

(X)

Don't forget I love you all be your self
