

YNKEUMALICE - Wet dream

**I go to sleep thinking
About you saying you always on my mind
Feeling like i see you in my dreams like
Days and times are different
Feeling mellow knowing i'm numb
Feel like smoking za
Getting high
I love who i want but i know sometimes
You can't always have the one
Knowing i am young twenty some
Feeling like life is more then what it seems**

**I remember times about you
I can't stop thinking about you
Saying you the one i love
Wanting you for ever
Promise ain't promise
But i make promise to love you
Feeling like your that one
Act so foolish thinking i'm cool
Trying to play it cool when i'm around you**

**I go to sleep thinking
About you saying you always on my mind
Feeling like i see you in my dreams like
Days and times are different
Feeling mellow knowing i'm numb
Feel like smoking za
Getting high
I love who i want but i know sometimes
You can't always have the one**

**Knowing i am young twenty some
Feeling like life is more then what it seems
Love to connect and ask you out
What's your sosh what's your number
Want to get to know you knowing
I can pull what i can pull with charm and rizz**
