

icherishuale - peanut butter jelly

{Chorus}

**Black and white shawty, she mixed, call her marble
New white plug, that nigga named Marshall
Choppa will spray you, them bullets is harmful
Bullets, it's burning, gon' go to the doctor
Give him a cut like he went to the barber
I am so green like I need a new charger
Make him erase like a dry erase marker
Another white plug, I think he named Parker
Just like a harbor, I'm dripping in water
He is my brother like he Reggie Carter
I'm off the scene like I'm high off a bean
Got two phones like iJustine
Makin' this money, like what do you mean?
Fat pockets lucky like he sippin' lean
Bad bitch, you know she think she the queen
Bad bitch, you know her name is Christine
Don't fuck with hoes, yeah, I leave them on seen
Call me a hypebeast, I'm rockin' Supreme
Choppa gon' go, yeah, I got a machine
Choppa gon' go and I'm only thirteen**
