

YNKEUMALICE - Circus

I'm crazy

I'm strange

I'm weird

I gotta be myself

Laughing at me

Thinking of hating myself

Fucking up my life

Doing drugs to just to cope

Smoking to cope

Medical za

Smoking just to let go

When I can't let go

Eyes on me

Look at me

Clown

I finna clown on all them

Turn em to jokes

It's a circus it's circus

I'm the big act

I'm the big star

Eyes on me

Look at me

Clown

I'm crazy

I'm strange

I'm weird

I gotta be myself

Laughing at me

Thinking of hating myself

Fucking up my life

Doing drugs to just to cope

Smoking to cope

Medical za

Smoking just to let go

When I can't let go

See rappers drop

Fail can't continue can't hang on to the game

Make big hit then disappear like a magic trick

Can't go on you gotta be strong in the game

Know that I'm barely holding on got more success

Then the richest man call me the most successful

They probably want to kill m

They probably take my life

I don't want a record label

I just do me single artist

Creating in the lab thinking of experimenting

Witch cauldron finna go mad scientist
